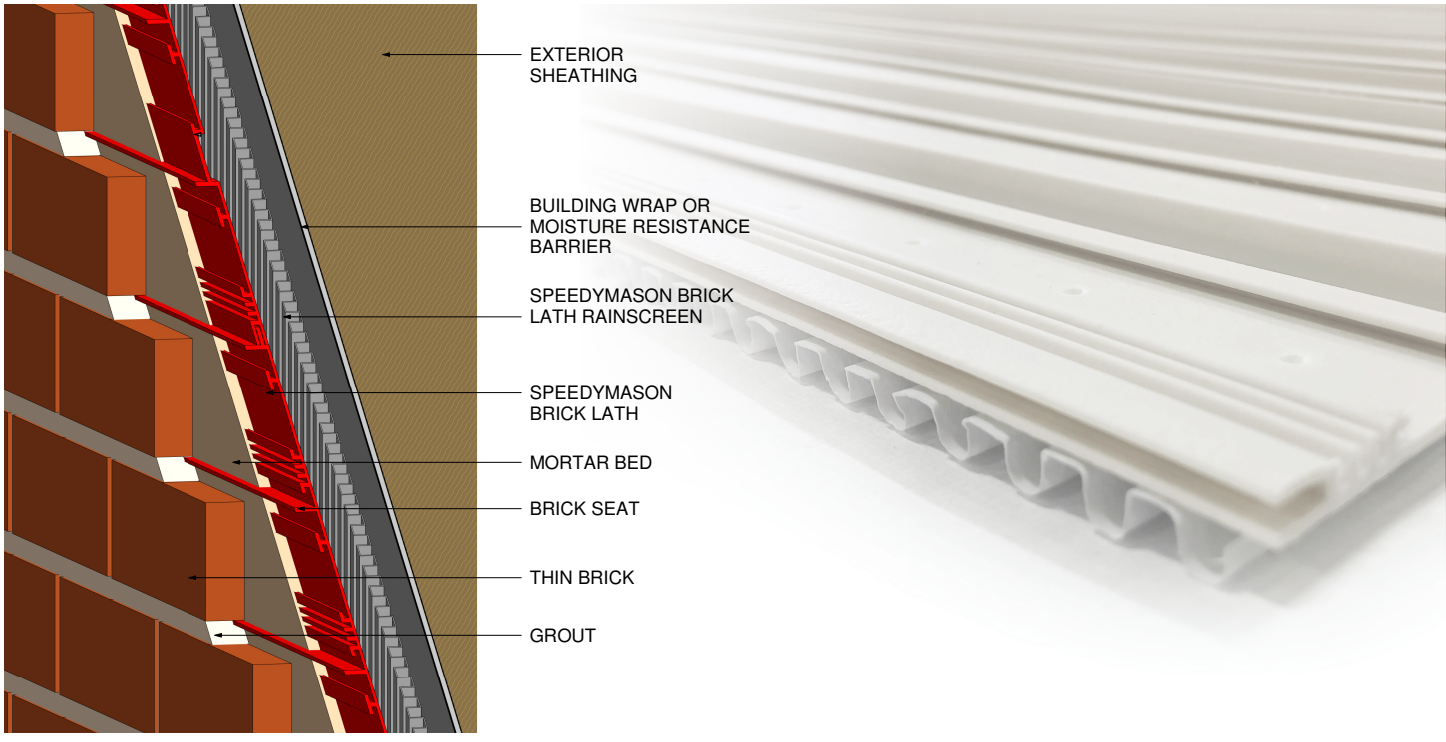
speedymason™ INVENT PENDING

EXPERIENCE THE THIN BRICK REVOLUTION

BRICK LATH AND STONE LATH™

Rainscreen Features and Benefits



- Rainscreen applied to the back of Brick Lath and Stone Lath
- Saves a step in the installation process as rainscreen is already on panel
- Apply over air and water barrier to create complete drainage system
- Allows drainage and ventilation to exterior walls
- Works great in areas with high rainfall or wind driven rain
- Available on 16" x 48" Speedymason Brick and Stone Lath
